Data Security Checklist

Event data security: a cheat-sheet for choosing the most secure event tech options

This cheat-sheet is designed to help event managers select technology solutions that take your data security seriously.

IS YOUR DATA HOSTED ON A REPUTABLE PLATFORM?

✓ YES   ✗ NO*

Follow up question: What is the name of your cloud provider?

IS MY DATA ENCRYPTED AT REST?

✓ YES   ✗ NO*

IS MY DATA ENCRYPTED IN TRANSIT?

✓ YES   ✗ NO*

*Each of these questions are considered deal breakers. If you get a "no" answer to any one of these, consider exploring a different technology solution.

IS YOUR SOFTWARE AUDITED BY A THIRD PARTY?

✓ YES   ✗ NO

Follow up questions: How often do you conduct audits? Which vendor do you use for the audits?

HOW IS YOUR DATA BACKED UP?

(You are looking for a response about how the hosting platform offers data backups as part of its normal service.)

DOES YOUR API HAVE ROLE-BASED PERMISSIONS?

✓ YES   ✗ NO
